PRODUCT SPECIFICATION

ENVIRONMENTAL CONTROLS

- Upon receipt of raw materials these are checked, tested as required and must conform to specification and be free from pest ingress before being allowed into our premises.
- All aspects of the manufacturing areas are subject to microbiological testing. This includes the finished products and swab testing of machinery, contact surfaces and staff.
- Microbiological samples are sent regularly to an external UKAS accredited laboratory.
- A pest control company is employed to ensure that the site is protected from rodents, insects and other common pests.
