

RM Curtis & Co Ltd Product Specification

Product Information		
Product name	Split Almonds	
Product code	100734	
Product description	Blanched almonds split into halves	
Legal name	Blanched Split Almonds	
Brand	N/A	
Pack size	10kg	

Head Office Contact Details

Almonds (100%)

Additive Table				
E-number	Name	Function	Amount (mg/kg)	

Allergen Table			
Allergens	Contains	May contain	Does not contain
Cereals containing gluten*			\checkmark
Crustaceans and products thereof			\checkmark
Eggs and products thereof			\checkmark
Fish and products thereof			\checkmark
Peanuts and products thereof			\checkmark
Soybeans and products thereof			\checkmark
Milk and products thereof			\checkmark
Nuts**	✓		
Celery and products thereof			\checkmark
Mustard and products thereof			\checkmark
Sesame seeds and products thereof			\checkmark
Sulphur dioxide and sulphites at concentrations of more than 10 mg/kg			\checkmark
Lupin and products thereof			\checkmark
Molluscs and products thereof			\checkmark

*Namely: wheat, rye, barley, oats, spelt, kamut or their hybridised strains, and products thereof

**Namely: almonds (Amygdalus communis L.), hazelnuts (Corylus avellana), walnuts (Juglans regia), cashews (Anacardium occidentale), pecan nuts (Carya illinoinensis (Wangenh.) K. Koch), Brazil nuts (Bertholletia excelsa), pistachio nuts (Pistacia vera), macadamia or Queensland nuts (Macadamia ternifolia), and products thereof

'Contains' indicates that the allergen is intentionally present as an ingredient.

'May contain' indicates a risk of contamination by an allergen not intentionally present as an ingredient. 'Does not contain' indicates that the allergen is not intentionally present as an ingredient and there is no probable risk of contamination.

Irradiated Material

In compliance with directive 1999/2/EC of the European Parliament and of the Council of 22 February 1999 and all subsequent amendments on the approximation of the laws of the Member States concerning foods and food ingredients treated with ionising radiation, we confirm that this product has not been treated with ionising radiation and nor does it contain ingredients that have been treated with ionising radiation.

Genetically Modified Material

In compliance with regulation (EC) No 1830/2003 of the European Parliament and of the Council of 22 September 2003 and all subsequent amendments concerning the traceability and labelling of genetically modified organisms and the traceability of food and feed products produced from genetically modified organisms, we confirm the following:

This product does not consist of and nor does it contain genetically modified material.

This product, including all ingredients, has not been produced from genetically modified material.

Genetically modified organisms have not been used as processing aids or used in connection with the production of this product or any of its ingredients.

Organoleptic parameters			
Flavour	Characteristic of almonds, free from objectionable foreign flavours		
Aroma	Characteristic of almonds, free from objectionable foreign odours		
Typical profile descriptors	Creamy, nutty, mild, marzipan		
Appearance (including colour)	Off-white to yellow-brown halves of blanched almond kernel		
Texture	Firm, crisp		

Size	Target	Max or range	Sample size
Length(mm)			
Width(mm)			
Height(mm)			
Diameter(mm)			
Whole	Absent	2%	
Pieces			
Ground/fine			
Under or over sized pieces			
Size count			
Retained on sieve size(mm)			
To pass through sieve size(mm)			
Any additional size criteria - detail below			

Material Defects	Target	Max or range	Sample size
Discoloured	<1%	1%	
Rotten/mouldy			
Broken or incomplete	<5%	5%	
Mechanically damaged or bruised			
Infestation - dead			
Evidence of insect damage	<2%	2%	
Under developed			
Rancid/bitter/other undesirable flavours	<1%	1%	
Soft/rubbery/hard or other undesirable textures	<1%	1%	
Rancid/musky or other undesirable odours	<1%	1%	
Over roasted/burnt			
Shrivelled			
Sugared berries			
Peduncles and part peduncles			
Residual free syrup			
Any additional material defe	cts - detail be	elow	

Foreign bodies and contaminants intrinsic to the product	Target	Max or range	Sample size
Total EVM			
Pips/seeds/pits and fragments thereof			
Skin	<1.5%	1.5%	
Stalk >10mm			
Stalk <10mm			
Total stalk			
Capstems			
Leaves			
Septa			
Shell and shell fragments	<5	5	Per tonne
Any additional intrinsic foreign b	odies - deta	il below	

Foreign bodies and contaminants extrinsic to the product	Target	Max or range	Sample size
Dust and grit			
Mineral stones >2mm			
Mineral stones <2mm			
Total mineral stones			
Any additional extrinsic foreign	oodies - deta	il below	
There is an tolerance of 5 pieces of foreign matter per tonne,	inclusive of c	lust, shell et	c harmless by ingestion

In all cases, parameters expressed as a percentage shall be taken as representative of a production batch.

 10
 kg

 Number of 'inners' per outer
 1
 1

Secondary Packaging		
Outer case/carton/bag packaging material type	Cardboard	
Colour	Dependant on manufacturer	
Method of closure	Таре	
Capacity per 'outer' (kg)	10	

Barcode		
Consumer unit barcode	N/A	
Trade unit barcode	N/A	
Outer trade unit barcode	N/A	

The product shall be distributed in clean undamaged packaging. All primary packaging materials shall be food grade and of sufficient durability to ensure the integrity of the product. In compliance with Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 and all subsequent amendments, materials and articles in contact with food shall not transfer their constituents to food in quantities which could endanger human health, bring about an unacceptable change in the composition of the food or bring about a deterioration in the organoleptic characteristics thereof. The labelling, advertising and presentation of a material or article shall not mislead consumers.

Shelf Life and Storage

Provide a description of the storage conditions required

Cool dry ambient conditions away from direct sunlight and strong odours. All food products are prone to infestation and it is essential to check regularly during prolonged storage . Once opened, store in sealed containers and use within one month.

Shelf life from production date (months)	12
Minimum shelf life on delivery (months)	4
Recommended storage temperature range (°C)	4-15
Recommended relative humidity range (%)	60-70

It is the responsibility of the customer to ensure appropriate storage conditions are maintained and no concern or complaint will be considered after 28 days from the point of delivery.

Maximum Durability

This is a long-life ambient product and there is generally no food safety concern associated with the use of this product beyond the recommended best before end date given. As with all food and beverage products, the organoleptic characteristics may change over time. The organoleptic changes that occur during storage will be influenced by the storage conditions that the product is subject to and in light of the fact that these conditions are beyond the control of RM Curtis, it is our position that:

A decision to use the products supplied beyond the best before end date stated may be taken at the sole discretion of the customer.

RM Curtis is not in a position to advise customers on a decision to use the products supplied beyond the best before date stated, and any such decision should be made by the customer.

RM Curtis accepts no liability or responsibility for loss or damage resulting from the use of goods beyond the best before end date stated.

	Validity

Date		

This specification shall be considered to be acceptable to all parties in the event that no dispute is raised within a 14 day period of submission.

Document Control

From time to time, updates and improvements may be made to the formatting of the specification template. These updates may include logos, contact details, syntax and other features which do not influence product quality or the specification agreement between RM Curtis & Co Ltd and its customers. Any such changes will not result in a new specification version number, but may be reflected in the document control parameters detailed below.
