

RM Curtis & Co Ltd

Product Specification

Product Information	
Product name	Mixed Fruit with Peel
Product code	803173
Product description	Mixed Fruit with Peel
Legal name	A mix of raisins, sultanas, currants and cut sweetened citrus peel
Brand	Curtis
Pack size	4x3kg

Head Office Contact Details	
RM Curtis & Co Ltd	Telephone 02072 740 717
95 Camberwell Station Road	Fax 02077 371 827

Additive Table			
E-number	Name	Function	Amount (mg/kg)
E330	Citric Acid	Acidity Regulator	
E220	Sulphur Dioxide	Preservative	

Allergen Table			
Allergens	Contains	May contain	Does not contain
Cereals containing gluten*			
Crustaceans and products thereof			
Eggs and products thereof			
Fish and products thereof			
Peanuts and products thereof			
Soybeans and products thereof			
Milk and products thereof			
Nuts**			
Celery and products thereof			
Mustard and products thereof			
Sesame seeds and products thereof			
Sulphur dioxide and sulphites at concentrations of more than 10 mg/kg			
Lupin and products thereof			
Molluscs and products thereof			

*Namely: Wheat, Rye, Barley, Oats, Spelt, Kamut or their hybridised strains, and products thereof

**Namely: Almonds (*Amygdalus communis* L.), Hazelnuts (*Corylus avellana*), Walnuts (*Juglans regia*), Cashews (*Anacardium occidentale*), Pecan nuts (*Carya illinoensis* (Wangenh.) K. Koch), Brazil nuts (*Bertholletia excelsa*), Pistachio nuts (*Pistacia vera*), Macadamia or Queensland nuts (*Macadamia ternifolia*) and products thereof

'Contains' indicates that the allergen is intentionally present as an ingredient.

'May contain' indicates a risk of contamination by an allergen not intentionally present as an ingredient.

'Does not contain' indicates that the allergen is not intentionally present as an ingredient and there is no probable risk of contamination.

Dietary Suitability

Irradiated Material

In compliance with directive 1999/2/EC of the European Parliament and of the Council of 22 February 1999 and all subsequent amendments on the approximation of the laws of the Member States concerning foods and food ingredients treated with ionising radiation, we confirm that this product has not been treated with ionising radiation and nor does it contain ingredients that have been treated with ionising radiation.

Genetically Modified Organisms

In compliance with regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 and all subsequent amendments concerning the traceability and labelling of genetically modified organisms and the traceability of food and feed products produced from genetically modified organisms, we confirm the following:

This product does not consist of and nor does it contain Genetically Modified Organisms.

This product, including all ingredients, has not been produced from Genetically Modified Organism.

Genetically Modified Organisms have not been used as processing aids or used in connection with the production of this product or any of its ingredients.

Organoleptic parameters

Flavour	Characteristic of the fruits and citrus peel, free from objectionable foreign flavours
Aroma	Characteristic of the fruit and citrus peel, free from objectionable foreign odours
Typical profile descriptors	Sweet, fruity
Appearance (including colour)	An assortment of light to dark brown and blue/black berries of varying sizes and wrinkled surfaces, mixed with dices of orange and yellow sweetened citrus peel
Texture	Soft to firm

Size	Target	Max or range	Sample size
Length(mm)			
Width(mm)			
Height(mm)			
Diameter(mm)			
Whole			
Pieces			
Ground/fine			
Under or over sized pieces			
Size count		*	per 100g
Retained on sieve size(mm)			
To pass through sieve size(mm)			
Any additional size criteria - detail below			
*Berry count (per 100g) - Sultanas and raisins (201-320), Currants (400-600)			

Material Defects	Target	Max or range	Sample size
Discoloured	<10%	10%	% by weight
Rotten/mouldy	<1%	1%	% by weight
Broken or incomplete			
Mechanically damaged or bruised	<1.5%	1.5%	% by weight
Infestation - dead			
Evidence of insect damage			
Under developed	<1.5%	1.5%	% by weight
Rancid/bitter/other undesirable flavours	<1%	1%	% by weight
Soft/rubbery/hard or other undesirable textures	<1%	1%	% by weight
Rancid/musky or other undesirable odours	<1%	1%	% by weight
Over roasted/burnt			
Shrivelled			
Sugared berries	*	*	% by weight
Peduncles and part peduncles			
Residual free syrup			
Any additional material defects - detail below			
*Sugared berries before May <2%; after May <4% max.			

Please note: parameters are not applicable if shaded

Foreign bodies and contaminants intrinsic to the product	Target	Max or range	Sample size
Total EVM	<1 pc	1 pc	1 kg
Pips/seeds/pits and fragments thereof	<5%	5%	% by weight
Skin			
Stalk >10mm	<2 pcs	2 pcs	12.5kg
Stalk <10mm	<4 pcs	4 pcs	12.5kg
Total stalk			
Capstems	<5%	5%	% by weight
Leaves			
Septa			
Shell and shell fragments			
Any additional intrinsic foreign bodies - detail below			

Foreign bodies and contaminants extrinsic to the product	Target	Max or range	Sample size
Dust and grit	<0.01%	0.01%	% by weight
Mineral stones >2mm			
Mineral stones <2mm			
Total mineral stones	<3	3	per tonne
Any additional extrinsic foreign bodies - detail below			

In all cases, parameters expressed as a percentage shall be taken as representative of a production batch.

Please note: parameters are not applicable if shaded

Microbiological Standards				
Criteria	Test method	Test frequency	Target	Maximum acceptable value
Aerobic Colony Count	BS EN ISO 4833:2003	Annual	<10,000 cfu/g	50,000 cfu/g
Enterobacteriaceae	BS ISO 21528-2:2004	Annual	<10 cfu/g	100 cfu/g
<i>E. Coli</i>	BS ISO 16649-1:2001	Annual	<10 cfu/g	10 cfu/g

Aflatoxin B1 (ppb)	RM tested annually	HPLC Fluorescence Detection	2
Total aflatoxins (ppb)	RM tested annually	HPLC Fluorescence Detection	4
Any additional chemical parameters - detail below			

Product is in compliance with Commission Regulations: (EC) No 1881/2006 of 19 December 2006 setting maximum levels for certain contaminants in foodstuffs and its amendments; Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin.

Packaging	
Packaging Format Description	
4x3kg of product in preprinted film	

Primary Packaging	
Food contact packaging material type	Plastic
Colour	Preprinted
Method of closure	Heat sealed
Capacity per 'inner'	<input type="text"/> g <input type="text"/> 3 kg
Number of 'inners' per outer	4

Secondary Packaging	
Outer case/carton/bag packaging material type	Cardboard
Colour	Brown
Method of closure	Taped
Capacity per 'outer' (kg)	12

Barcode	
Consumer unit barcode	5013803803186
Trade unit barcode	n/a
Outer trade unit barcode	05013803803179

The product shall be distributed in clean undamaged packaging. All primary packaging materials shall be food grade and of sufficient durability to ensure the integrity of the product. In compliance with Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 and all subsequent amendments, materials and articles in contact with food shall not transfer their constituents to food in quantities which could endanger human health, bring about an unacceptable change in the composition of the food or bring about a deterioration in the organoleptic characteristics thereof. The labelling, advertising and presentation of a material or article shall not mislead consumers.

Shelf Life and Storage	
Provide a description of the storage conditions required	
Cool dry ambient conditions away from direct sunlight and strong odours. All food products are prone to infestation and it is essential to check regularly during prolonged storage . Once opened, store in sealed containers and use within one month.	
Shelf life from production date (months)	12 months or to BBE date indicated on package markings or release certificate
Minimum shelf life on delivery (months)	4
Recommended storage temperature range (°C)	4-15
Recommended relative humidity range (%)	60-70

It is the responsibility of the customer to ensure appropriate storage conditions are maintained and no concern or complaint will be considered after 28 days from the point of delivery.

Please note: parameters are not applicable if shaded

Maximum Durability

This is a long-life ambient product and there is generally no food safety concern associated with the use of this product beyond the recommended best before end date given. As with all food and beverage products, the organoleptic characteristics may change over time. The organoleptic changes that occur during storage will be influenced by the storage conditions that the product is subject to and in light of the fact that these conditions are beyond the control of RM Curtis, it is our position that:

A decision to use the products supplied beyond the best before end date stated may be taken at the sole discretion of the customer.

RM Curtis is not in a position to advise customers on a decision to use the products supplied beyond the best before date stated, and any such decision should be made by the customer.

RM Curtis accepts no liability or responsibility for loss or damage resulting from the use of goods beyond the best before end date stated.

Date	

This specification shall be considered to be acceptable to all parties in the event that no dispute is raised within a 14 day period of submission.

Document Control

From time to time, updates and improvements may be made to the formatting of the specification template. These updates may include logos, contact details, syntax and other features which do not influence product quality or the specification agreement between RM Curtis & Co Ltd and its customers. Any such changes will not result in a new specification version number, but may be reflected in the document control parameters detailed below.
